The proposed decision asks the Energy Division to work with the California Independent System Operation (CAISO) and the California Energy Commission to: (1) adjust the local capacity requirements for the local areas for which deficiencies in qualified generation capacity have been identified by the CAISO and (2) allocate local capacity requirements to individual, Commission-jurisdictional load-serving entities (LSEs); thereby establishing each LSE's local procurement obligation, using the allocation principles adopted in the decision.

The Commission's Energy Division will prepare and release a workshop agenda prior to the meeting. In addition to the items listed above, as well as any other items directed to the Energy Division in the final order, the Energy Division expects to use the meeting to discuss the 2007 Resource Adequacy Template and Guide (which will be released prior to the workshop).

NOTICE OF EX PARTE COMMUNICATIONS

Copies of tendered notices are available in the Central Files Office for review and/or reproduction under existing procedures. They are also available from the filing party who is under the obligation to provide copies of the notice without delay.

7/7/06 **A05-03-001** – Pacific Gas and Electric Company, for adoption of policy and process for acquisition of incremental core gas storage in compliance with Ordering Paragraph 5 of Decision 04-09-022, and for adoption of a core reliability planning standard.

Summary: On July 5, 2005, Jeanne Armstrong, of the law firm Goodin MacBride Squeri Ritchie & Day, outside counsel

for Wild Goose Storage Inc. (Wild Goose), met with Rami Kahlon, advisor to Cmmr. Peevey, and Lindsay Brown, advisor to Cmmr. Bohn, in two separate meetings in San Francisco. Armstrong discussed the proposed decision (PD) of ALJ Wong. Armstrong relayed that Wild Goose believed the record supported the PD's determination to reject Pacific Gas and Electric Company's (PG&E) proposal to apply its current credit policy to participants in PG&E's request for offers (RFO) for core storage service. Armstrong explained, however, that the PD's determination to send the issue of the appropriate credit policy to be applied to independent storage providers which participate in the RFO back to settlement discussions was not only unnecessary but ill-advised. In addition, Armstrong explained how there was sufficient record evidence to adopt appropriate criteria for assessing the ability of independent storage providers to meet their contractual obligations. Armstrong stated that, indeed, the PD had delineated such criteria.

7/10/06 **A05-06-028** – Pacific Gas and Electric Company, for authority to increase revenue requirements to recover the costs to deploy an advanced metering infrastructure.

Summary: On July 7, 2006, Bill Stock, Director, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Rami Kahlon, advisor to Pres. Peevey, in San Francisco. Also present were Paul Prudhomme, Manager, Revenue Forecasting and Analysis, and Mike Reidenbach and Peter Ouburg, attorneys, for PG&E. Ouburg outlined PG&E's comments and reply comments on ALJ Long's proposed decision on PG&E's Advanced Metering Project.

7/10/06 **R02-06-041** - Order Instituting Rulemaking to require California Natural Gas and Electric Utilities to preserve Interstate Pipeline Capacity to California.

Summary: On July 5, 2006, Sidney Dietz, Manager, Regulatory Relations, Pacific Gas and Electric Company (PG&E), had a telephone conversation with Rami Kahlon, advisor to Pres. Peevey. Dietz stated that PG&E would support a proposed decision that allows for recovery outside of CPIM for hedging transaction costs for core customers. Dietz explained how the current CPIM mechanism does not align shareholder and customer interests.

7/10/06 **R06-02-013** - Order Instituting Rulemaking to integrate procurement policies and consider long-term procurement plans.

Summary: THIS IS AN AUGMENTED NOTICE OF AN EX PARTE COMMUNICATION THAT WAS FILED ON JULY 3, 2006, AND APPEARED IN THE CALENDAR OF JULY 6, 2006. On June 28, 2006, Marc Joseph, attorney for the Coalition of California Utility Employees (CUE), participated in an all-party meeting with Pres. Peevey in San Francisco. Also present were Nancy Ryan, advisor to Pres. Peevey, and other attendees, listed on the attachment to the notice. A portion (attached to the notice) of the testimony was read. Joseph stated that in at least two prior decisions, the Commission had decided to have both utility owned and independent generation. Joseph noted that the draft decision foreclosed utility owned generation by requiring Pacific Gas and Electric Company and Southern California Edison Company to fill up all of the system need with power purchase agreements. Joseph asserted that this would result in higher costs because the independent generators would know that they had no competition from cost based generation, would force bundled customers to pay more than their fair share for any utility owned generation, and would deprive direct access customers of the best deal. Joseph noted that utility owned generation may be the best deal for customers, with Colusa being an example.

7/10/06 **R04-01-025** - Order Instituting Rulemaking to establish policies and rules to ensure reliable, long-term supplies of Natural Gas to California.

Summary: On July 6, 2006, Yvonne L. Gross, Regulatory Policy Manager of Sempra Global, representing Sempra LNG, had a telephone conversation with Rami Kahlon, advisor to Pres. Peevey. After the conversation, Gross provided via email

a copy (attached to the notice) of the written presentation made by the National Energy Technology Laboratory. Gross discussed the role played by the U.S. Department of Energy in coordinating the Federal government's and private industry's research on natural gas quality and interchangeability.
